FALGUN PATEL

M.Sc. Computer Science Student | Software Developer | AI Application Developer

+919461573282 | falgunpatel071@gmail.com | LinkedIn | GitHub | Portfolio | Pune

PROFESSIONAL SUMMARY

M.Sc. Computer Science student and **Software Developer with experience in full-stack development, AI benchmarking, and AI-powered applications**. Skilled in React, Node.js, Python, REST APIs, Docker, PostgreSQL, and MongoDB, with hands-on experience building backend systems, automated testing and validation pipelines, and reproducible development environments. Experienced as an **AI Benchmark Contributor at Handshake AI**, designing coding-agent evaluation tasks and deterministic test frameworks, and as a **Data Annotation Expert at Mercor**, with a strong focus on AI data quality and evaluation workflows.

WORK EXPERIENCES

Data Annotation Expert | Contract — Sep 2026 - Sep 2026
Mercor — *Remote*

- **Performed 25+ document annotation** and **text transcription** for PDF-based datasets, following detailed annotation guidelines and quality standards.
- **Annotated document elements** including text, titles, section headers, lists, tables, pictures, captions, and page headers/footers.
- **Transcribed Gujarati content accurately**, preserving original script, punctuation, numerals, formatting, and line structure.
- **Reviewed and corrected annotations** for accuracy and consistency, ensuring outputs met project-specific quality requirements.

AI Benchmark Contributor | Contract — Jul 2026 - Aug 2026
Handshake AI — *Remote*

- **Designed three end-to-end software engineering benchmark tasks** for evaluating frontier language models.
- **Built reproducible Docker environments**, automated validation pipelines, and deterministic test frameworks for backend evaluation.
- **Developed oracle solutions**, Python automation scripts, and verification workflows for AI benchmarking.
- **Created complex evaluation scenarios** involving debugging, API validation, backend infrastructure, and distributed software systems.

Frontend Developer Intern | Internship — Jan 2026 - Jun 2026
Patrixel — *Remote*

- **Developed a responsive ReferValue Card system** and engineered over 15 reusable UI components using **React**, Context API, and **Tailwind CSS**, **reducing front-end development time by 20%** for future portal features.
- **Interfaced with the backend team** to integrate RESTful APIs, implementing client-side error handling, data transformation pipelines, and secure session persistence via localStorage and protected routing.
- **Built functional admin interfaces** featuring data tables with search capabilities, multi-column sorting, pagination, and role-based data filtering.
- **Conducted thorough testing**, input validation audits and API tracking across 3 web apps in the final month to identify bugs, resolve runtime errors, and ensure production readiness.

Website Developer | Freelance — Jun 2025 - Nov 2025
caliz.online — *Remote*

- **Deployed and configured a fully functional WordPress** and **WooCommerce e-commerce website**, handling the complete layout, product architecture, and secure payment gateway.
- **Customized themes and optimized visual layouts**, media assets, and configurations within the WordPress environment to ensure fast page speeds and responsive design across devices.
- **Managed the full deployment lifecycle** including hosting setup, domain configuration, custom business email routing, SEO configurations, and post-launch stability maintenance.

SKILLS

Databases :	PostgreSQL, MongoDB, Supabase
Frameworks & Libraries :	React, Tailwind CSS, Node.js, Express.js
Languages :	English, Hindi, Gujarati
Programming Languages :	JavaScript, HTML5, Python
Soft Skills :	Problem Solving, Time Management, Layout Analysis, Teamwork
Tools & Platforms :	AWS EC2, Docker, WordPress, WooCommerce, GitHub, Git, CI/CD, Postman, GitHub Actions, Mercor, Data Annotation, Vercel, GitLab

EDUCATIONS

Year	Degree	Institute	CGPA
Jul 2025 - Jul 2027	Master of Science in Computer Science (M.Sc.)	MIT World Peace University	7.66
Jun 2022 - Jun 2025	Bachelor of Science in Information Technology (B.Sc. IT)	NVPAS	9.12

PERSONAL PROJECTS

AI Voice Agent Jan 2026 – Mar 2026

https://ai-voice-agent-eosin.vercel.app/

- **Built real estate assistant application** using an **AI-assisted development workflow**, integrating the **Grok LLM** for intent detection and conversational natural language processing.
- **Engineered an automated outbound calling system** by connecting **Twilio Voice** and **Amazon Polly** text-to-speech APIs to deliver **real-time, dynamic property updates**.
- **Structured a Node.js and Express backend** using a **MongoDB database**, integrating ngrok webhooks to track incoming lead activity and log user conversations.
- **Developed a multi-channel interface** using the **Web Speech API** to allow seamless user interactions via both voice inputs and standard text chat.

Authentication Backend System Mar 2026 – Apr 2026

https://github.com/Falgunp07/Authentication-Backend

- **Developed a secure full-stack authentication system** using **JSON Web Tokens (JWT)** with short-lived access tokens and secure HTTP-only refresh cookies.
- **Built a device management dashboard** that reads User-Agent data to track active user sessions and allows users to trigger a remote logout across devices.
- **Implemented backend security measures** including rate limiting, Google OAuth2 integration, and email verification codes sent via **Nodemailer**.
- **Containerized the complete application** using **Docker** and deployed it onto an **AWS EC2 instance**, managing the environment configuration and live API exposure.

CERTIFICATIONS

- Web Development Workshop, Microsoft, 2025
- Front-End Development, Coursera - Meta, 2024
- Introduction to AI, Coursera - IBM, 2024
